PROVA DE LÍNGUA INGLESA**JUST ADD WATER**

01 Are you looking for a new way to exercise?
02 Do you want to keep cool while you burn calories? If
03 you answered yes, maybe it's time to get out of the
04 gym and into the pool.

05 More and more people of all ages are trying
06 aquatic exercise. Aquatic exercise is like exercise
07 on land, but you do it in a swimming pool. For
08 example, you can run, walk, and do aerobics or
09 yoga.

10 There are many advantages to aquatic
11 exercise. Your body is lighter in the water. You
12 weigh 90 percent less in the pool than at the gym.
13 That's why exercising in the pool feels easier. But
14 you burn the same number of calories as at the
15 gym. That's because it takes energy to move in the
16 water.

17 Aquatic exercise is also safe and easy to
18 learn. For most kind of aquatic exercise, you don't
19 even need to know how to swim. You don't need
20 much training. You can do it at any age. You can do
21 it safely with **an injury** or when you are pregnant.
22 You can move in ways that are not possible on land.
23 Some people who can not walk on land can walk
24 and even run in the water.

25 All exercise is good for you, but aquatic
26 exercise has one more important advantage. Most
27 people feel more relaxed when they are in the
28 water. And that means they will probably exercise
28 more.
