PROVA DE LÍNGUA INGLESA**IS RECYCLING A WASTE OF TIME?**

01 Recycling is a topic that gets many people
02 talking. Some say it's very important. Others wonder
03 if it's a waste of time. The truth is, recycling has a
04 big impact on our planet.

05 "Recycling is not a waste of time," says Mia
06 Green, an environmental campaigner. "It's a crucial
07 effort to save our environment." She explains that
08 recycling helps to reduce rubbish.

09 When we recycle, we separate our waste.
10 Glass goes in one bin, paper in another, and plastic
11 in a different one. This makes it easier to process
12 and reuse these materials. Recycling helps to
13 reduce the amount of waste. It means less rubbish
14 is burned or put into the ground. This is good
15 because doing that can harm the environment.
16 They can cause pollution and take up a lot of space.

17 Mia says, "Recycling takes a little effort, but it's
18 worth it." She believes that everyone should
19 recycle. It's a small action that can make a big
20 difference.

21 Some people think recycling is a waste of time.
22 They say it takes too much effort. But recycling is
23 becoming easier. Many places have simple systems
24 for recycling.

25 Recycling can also save resources. It uses less
26 energy than making new things. This is good for our
27 planet. It helps to protect natural resources.

28 "It's not just about throwing things away," Mia
28 says. "It's about thinking how we can reuse them."
30 She encourages people to think before they throw
31 things away.

32 Recycling is an important part of caring for our
33 environment and it's an effort we all should make.
34 Every piece of rubbish we recycle can help our
35 planet.
