

**PUBLIC CALL NO. 86 /2025**

**APPLICATIONS FOR SELECTION TO THE  
ACADEMIC DOCTORATE COURSE IN CLINICAL  
CARE IN NURSING AND HEALTH (PPCCCLIS) -  
CLASS 2026.**

The Magnificent Rector of the State University of Ceará (UECE), Prof. Me. Hidelbrando dos Santos Soares, in the use of his statutory and regimental attributions, makes public the opening of a Public Call for applications for selection, at the **DOCTORATE** level, to the **Postgraduate Program in Clinical Care in Nursing and Health (PPCCCLIS)**. Twenty (20) places will be offered for the Doctorate, of which fourteen (14) will be for nurses, three (3) for other health professionals, and three (3) for foreigners, distributed across three lines of research:

- 1- Foundations and Practices of Clinical Care in Nursing and Health;**
- 2- Policies and Management for Clinical Practice in Nursing and Health;**
- 3- Innovation and Technology in Clinical Care in Nursing and Health.**

The Program aims to train scientists in Nursing and other areas of Health who are capable of leading teams to investigate new scientific and technological knowledge and innovation in the area of Nursing and Health, with a view to improving the health and lives of the population, and to qualify teachers to work in Higher Education in the area of Nursing and Health.

**1. REGISTRATION**

1.1 Applications and the submission of the required documentation will be made using the **Google Form** available on the PPCCCLIS website: [www.uece.br/ppccclis](http://www.uece.br/ppccclis)

1.2 The documentation will be analyzed by the Examining Committee, observing compliance with the requirements set out in this Notice, including receipt of all relevant documentation, in accordance with the deadlines.

1.3 Applications will be accepted from September 1 to 30, 2025.

1.4 All documentation relating to the call for applications must be sent in 3 (three) files, each containing a single PDF file and attached to the form provided.

1.5 Selection will be by line of research. Each candidate must apply for one of the Program's lines and for one of the thematic fields offered.

1.6 Acceptance of the candidate's application is conditional on sending all the documents scanned in PDF (they cannot be photographed) and saved in separate files, with the following names:

**FILE 1**

- a) Copy of identity document (nationality document, passport, or national identity document);
- b) Up-to-date proof of address.

## FILE 2

- a) CV in the full Lattes Platform format (<http://www.cnpq.br>), with a scanned copy of the titles listed in **ANNEX 1**;
- b) Copy of the Master's degree, or declaration of defense of the dissertation with a defense date not exceeding 12 months, or declaration that the dissertation is expected to be defended by the date of first enrollment in the PPCCLIS;
- c) Copy of the National Registry of Foreigners (RNE) and proof of proficiency in Portuguese (CELPE-BRAS) for foreign candidates; if the candidate has it;
- d) Copy of proof of foreign language proficiency issued by public educational institutions in the national territory, if the candidate has it;
- e) Original statement of availability of time to dedicate to the course, provided by the employer, or own declaration if there is no employment relationship.

## FILE 3

- a) Thesis pre-project with the identifying data of the pre-project on the cover (title of the pre-project, specifying the line of research and thematic field), without identifying the candidate's name;
- b) Plan of internationalization activities describing, in up to three pages, the activities to be carried out in higher education institutions in foreign countries, with the aim of deepening the conceptual and theoretical aspects of the intended object of study, namely: 1) carrying out a sandwich doctorate; 2) technical visits; 3) participation in events with an oral presentation. The proposal must inform the location of the sandwich doctorate and the tutor who will be responsible for accompanying the doctoral student.

1.7 The Secretariat will confirm receipt of the documentation and notify the candidate of their application number by e-mail, within five days of the date of submission. Additional documentation will not be accepted after the first registration e-mail.

1.8 PPCCLIS will not be responsible for documents not received due to technical operational factors or any other factor that prevents the e-mail from being received.

## 2. SPECIAL ASSISTANCE

2.1 Candidates who require special assistance, in accordance with Law No. 7.853/1989 and Article 27, items I and II of Decree No. 3.298/1999, may request special conditions for taking the tests. To do so, you must

- a) When registering online, indicate that they are requesting special assistance by means of a special assistance request;
- b) Attach the application for special assistance and a medical report indicating the type of disability they have and/or specifying their needs for personalized assistance to the documents requested in item 1. This report must include the name of the doctor who provided the document, a contact telephone number, and the professional's registration number with the Regional Medical Council (CRM);

2.2 Disabled candidates who require special assistance and fail to attach the medical report or comply with the procedures, deadlines, and timetables set out in the sub-items of this Notice will be unable to

take the tests under special conditions. The original medical report must contain the candidate's legible name and CPF number.

2.3 Compliance with the conditions requested in the application for special assistance will be subject to an analysis of the feasibility and reasonableness of the request.

### 3. THE VACANCIES

In this Call for Proposals, the Program offers 20 (twenty) PhD places, 14 (fourteen) for nurses, 3 (three) for other health professionals, and 3 (three) for foreigners, distributed in **3 (three) lines of research** and 16 (sixteen) thematic fields, as shown in Chart 1.

**Chart 1 - Distribution of vacancies, according to lines of research and thematic field.**

LINES OF RESEARCH	THEMATIC FIELD	Vacancy Enf.	Other Health Prof.	Vacancies for foreigners
	<b>Fundamentals and Practices of Clinical Care in Nursing and Health</b>			
1	Clinical nursing care in maternal health, social representations, and their applicability in the context of pregnancy, childbirth, and postpartum. (Prof. Dr. Dafne Paiva Rodrigues)	-	-	1
	Clinical nursing care for women experiencing the climacteric and its implications for quality of life (Prof. Dr. Ana Virginia de Melo Fialho)	1	-	
	Theoretical processes and practices of cardiovascular clinical and educational care from health promotion to palliative care (Prof. Dr. Vera Mendes de Paula Pessoa and Prof. Dr. Virna Ribeiro Feitosa Cestari)	1		1
	Patient safety and technologies in clinical care and chronicities (Prof. Dr. Sherida Karanini Paz de Oliveira)	1	1	
	Technologies and Measuring Instruments in Cardiological and Palliative Clinical Care and in Situations of Vulnerability (Prof. Dr. Virna Ribeiro Feitosa Cestari)	1		
	Clinical care in the promotion of sexual, reproductive, and maternal health (Prof. Dr. Saiwori De Jesus Silva Bezerra Dos Anjos)	1	1	
	<b>Policies and Management for Clinical Practice in Nursing and Health</b>			
2	Health promotion, policies, work management, and care management (Prof. Dr. Lucilane Maria Sales da Silva)	1	-	
	Health vulnerability and the epidemiology of chronic conditions (Prof. Dr. Raquel Sampaio Florêncio)	1	-	
	Patient safety and technologies in clinical care management (Prof. Dr. Rhanna Emanuela Fonetenele Lima de Carvalho)	1	-	
	Technology and innovation in health care management (Prof. Dr. Fernanda Jorge Magalhães)	1		
	Mental health care management in the life cycle, family and social support networks (Prof. Dr. Mardenia Gomes Vasconcelos Pitombeira)	1		
	<b>Innovation and Technology in Clinical Nursing and Health Care</b>			
	Technology and management for clinical care for children and adolescents (Prof. Dr. Ana Valeska Siebra e Silva)	1	-	

3	Production of nursing care technologies in child and adolescent health (Prof. Dr. Edna Maria Camelo Chaves)	1		
	Health law, clinic, and epidemiology of chronic diseases (Prof. Dr. Thereza Maria Magalhães Moreira)	1	1	1
	Clinic and epidemiology of infectious and parasitic diseases (Prof. Dr. Maria Lúcia Duarte Pereira)	1		
<b>TOTAL</b>		14	3	3

Considering the advent of State Law No. 18,825 of June 3, 2024, which amended Law No. 16,197/2017 (Law on quotas in higher education institutions in the State of Ceará), it should be noted that quota candidates must initially compete for the open competition places and, if they do not achieve a grade for admission through this modality, they will start to compete for the places reserved for affirmative action for access to postgraduate programs. The program will make three places available for black, self-declared indigenous, quilombola, and disabled (PCD) candidates. These candidates will be able to apply to any faculty member of the program that has offered a place, as shown in Table 1.

Black and indigenous candidates who wish to apply for the reserved places must present, when registering for the selection process, a self-declaration letter, according to the color or race questionnaire used by the Brazilian Institute of Geography and Statistics - IBGE (**ANNEX 3**). Indigenous candidates are those who declare themselves to be indigenous and present, at the time of registration, a copy of the administrative register of indigenous births (RANI) or a declaration of belonging issued by the indigenous group, signed by a duly legitimized local ethnic leader (**ANNEX 3**).

Candidates with disabilities must present a medical report (**ANNEX 2**) with a Disability Code in accordance with the International Classification of Diseases - ICD. People with disabilities will be considered to be those who fit the typology described by Decrees No. 3.298, of December 20, 1999, and No. 5.296, of December 2, 2004, of the Civil House of the Presidency of the Republic.

Candidates competing for the places reserved for quota holders will also be competing for the places open to the general public, in accordance with their overall ranking in the selection process. In the event of the withdrawal of a quota candidate approved within the number of reserved places, the vacancy will be filled by the quota candidate with the next highest ranking. If there is no successful quota candidate, the remaining vacancies will be reverted to the general competition.

The quota candidates will take precedence over the candidates from the broad competition in terms of the distribution of vacancies, so that only after all the approved quota candidates have filled their vacancies will the vacancies for each advisor be filled, subtracting from the total the vacancies filled by the quota candidates.

### **3.1 Quotas for black candidates**

Black candidates who apply for the quota must apply for this specific competition by submitting, in addition to the documents provided for in item 1.6, a PDF copy of the self-declaration form (**ANNEX 3**) duly completed and signed. These candidates must also, after completing the selection stages, go through a hetero-identification committee (CHET) appointed by the UECE to check the veracity and validation of the self-declaration provided by self-declared black candidates, under the terms of Resolution No. 1657/2021, of the University Council (CONSU) of the UECE, which establishes the instances and procedures for hetero-identification within the scope of the State University of Ceará, and takes other measures.

- Verification and validation by the hetero-identification panel is a specific elimination phase (art. 5);
- Failure by the candidate to appear for the hetero-identification procedure will result in their elimination from the examination (art. 9, § 3);
- The issuing of a negative declaration regarding the process of verification and validation of self-declaration results in the elimination of the candidate, even if they have obtained a score sufficient for approval in the broad competition, regardless of any allegation of good faith (art. 5, §4);
- Appeals may be lodged against the negative declaration decisions of the hetero-identification panel of self-declared black candidates (art. 12);
- Appeals will be heard by the Hetero-identification Appeals Committee, which will be made up of three different members of the CHET/UECE who carried out the first verification and validation (art. 12, §1);

- The deadlines and guidelines for lodging an appeal will be published by the Hetero-identification Appeals Committee on the program's website, as well as sent to the candidate's email address;
- The procedure for validating self-declaration will exclusively verify the phenotypic characteristics observed during the hetero-identification procedure of approved candidates who declare themselves to be black (black and brown), and will not consider the criterion of ancestry/ascendancy, or the results of other hetero-identification procedures carried out in any selection process (art.9 §§1, 2 and 5);
- Phenotype is considered to be the set of visible characteristics of the individual, predominantly skin color, hair texture and the shape of the face, especially the nose and lips, which, combined or not, will validate or invalidate the ethnic-racial condition affirmed by the self-declared black (black or brown) candidate, for the purposes of enrollment, hiring or appointment with FUNECE/UECE, according to art.9, §2;
- If there are successful candidates in the racial/black quota segment, the list of candidates for the hetero-identification procedure will be published on the PPCCLIS website (<https://www.uece.br/ppcclis/>). Candidates must attend the PPCCLIS, located in the Building of the Center for Research and Innovation in Collective Health (NUPEINSC), located at Av. Dr. Silas Munguba, 1700, Campus do Itaperi, On the date and time that will be announced on the website.

### **3.2 Quotas for indigenous people**

Candidates applying for the quotas for indigenous people must apply for this specific competition by submitting, in addition to the documents provided for in item 1.6, a PDF copy of the duly completed and signed self-declaration form (**ANNEX 3**) and a copy of the Administrative Register of Birth of Indigenous People (RANI), or a statement from the leadership of the Indigenous Community on the ethnic condition of the person entering, with identity number, CPF, address and contact telephone number.

### **3.3 Quotas for people with disabilities**

Candidates who apply for the quotas for people with disabilities must apply for this specific competition by submitting, in addition to the documents provided for in item 1.6, a PDF copy of the medical report / Certificate of Functionality (**ANNEX 2**) of up-to-date medical documentation from the last twelve months prior to the date of their application.

### **3.4 Vacancies for foreigners**

Considering the internationalization policy of the Graduate Program, foreign candidates will compete for the places reserved for foreigners according to their overall ranking in the selection process. If a foreign candidate who has been approved within the number of reserved places withdraws, the vacancy will automatically be allocated to the foreign candidate in the subsequent position. In the absence of successful foreign candidates, the reserved places may be reallocated to the open competition, respecting the ranking order.

## **4. THE SELECTION PROCESS**

The selection of candidates will be carried out by groups of professors called Selection Committees, one for each line of research at each stage of the selection. The Selection Committees will be appointed by the PPCCLIS Graduate Committee.

The selection process comprises 03 (three) stages: 1) evaluation of the research pre-project and internationalization activity plan (eliminary) 2) interview (eliminary); 3) CV analysis (qualifying and eliminary).

### **4.1 Assessment of the research pre-project and internationalization activity plan**

At this stage, it will be assessed:

The evaluation of the research pre-project and the internationalization activity plan will have a total value of **0 to 10 points**, with up to **9 points** being awarded to **the research pre-project** and up to **1 point** to **the internationalization plan**.

a) **The project highlights** (3.5) - Adherence to the candidate's subject area (1.0), Problem and contextualization of the research object (0.5); Justification of the study (0.5); Relevance and advances in knowledge in relation to the state of the art in the field of Nursing (1.0); Feasibility of the proposal (0.5); b) **Method** (2.5) - Type of study consistent with the proposed objective(s) (0.5); Description of the study site (0.3); Identification of the population and sample or subjects who will be involved in the study (0.5); Instrument and procedure for data collection (0.5); Detailed description of data analysis (0.5); Ethical and legal aspects of the research, highlighting CNS/MS Resolution 466/12 (0.2); c) **Coherence between the object of study, objectives and method** (1.0); d) **Quality of the writing** (1.0) - Adequate spelling and grammar (0.5); Coherence in the description of the project (0.5); e) **Updating and comprehensiveness of the bibliography** (0.5) - 70% of references in the last 5 years (0.1); National and international scope (0.1); Predominant citations of scientific articles (0.2); References from the candidate's work (0.1); f) **Internationalization activity plan** (1.0) - Potential for implementation (0.2); Outline of strategies (0.2); Estimated resources (0.2); Consistency with the thesis proposal (0.2); Contribution to the candidate's training related to the profile of institutions in the international academic panorama (0.2). (**ANNEX 4**).

The pre-project should contain **up to 15 (fifteen) pages**, including the following elements: cover, introduction, objectives, method and references. The project must be drawn up in accordance with the State University of Ceará's 2024 standards for preparing research projects ([UECE 2024 Guide to Standardizing Academic Work](#)).

The internationalization activity plan should be **up to 3 (three) pages long**. An **internationalization plan** is understood to be the proposal of actions involving the candidate's international academic insertion, such as: **technical visits lasting more than five days** and **sandwich doctorates with a minimum stay of six months** in teaching or research institutions abroad. The plan must demonstrate the **viability, relevance, and coherence** of the proposed actions in relation to the research project and the candidate's academic and scientific training, taking into account the strengthening of international cooperation and the consolidation of institutional partnerships.

Candidates who are proven to have perpetrated plagiarism (including conceptual plagiarism) and/or self-plagiarism, or to have used artificial intelligence programs, will be automatically eliminated from the selection process. In order to verify the incidence of these contraventions, the texts will be processed using detection programs.

On a scale of 0.0 (zero point zero) to 10.0 (ten point zero), the minimum mark to pass the next stage is 7.0 (seven point zero).

#### 4.2 Interview

At this stage, it will be assessed:

a) **Coherence and argumentative capacity in the presentation of the preliminary project** (4.0) - coherence in the presentation of the preliminary project (2.0); argumentative capacity in the preliminary project (2.0); b) **Feasibility of the proposal and internationalization activity plan** (3.0) - feasibility of carrying out the research and the internationalization activity plan (2.0); experience/living with the object of study (1.0); c) **Mastery of the subject** (3.0) - mastery of the theoretical content of the preliminary project (2.0); perception of the PhD course and the role/responsibility of a Doctor in Nursing (1.0) (**ANNEX 5**).

The interview will take place online, collectively, distributed in different groups according to the lines of research and times to be announced according to the schedule. The discussions will focus on the candidate's research pre-project and their availability to dedicate themselves to the course. Only candidates who have passed stages 1 and 2 of this subsection will be submitted to the interview. The call for interviews will be available at [www.uece.br/ppccis](http://www.uece.br/ppccis) and on the social network @ppccis\_uece.

On a scale of 0.0 (zero) to 10.0 (ten), **the minimum mark for approval is 7.0 (seven).**

### 4.3 CV analysis

The analysis of the curriculum will be of a **classificatory and eliminatory** nature, with a minimum score of **4.0 points** and a maximum of **10.0 points**. The candidate must obtain points in **all the assessment areas**. Scores will be awarded on the basis of the criteria set out below.

Only items duly **proven by attached documentation** and consistent with the information stated in the Lattes Curriculum Vitae, numbered in ascending order following the topics in **ANNEX 1** and ordered by the candidate, will be considered. **Unsubstantiated items will be disregarded.**

The candidate's final grade in this phase will correspond to the **sum of the scores obtained in the four evaluation axes**:

a) **Academic and Research Training (No time limit) up to 3.0 points** - Academic/Professional Master's Degree (diploma or minutes of defense) (1.0 point; maximum 1.0 point); Postgraduate scholarship holder (0.5 point; maximum 0.5 point); Residency in the health area completed (1.0 point; maximum 1.0 point); Specialization in the health area completed (0.5 point; maximum 1.0 point); Undergraduate scholarship holder (PET-MEC/PET-MS /Extension/monitoring/research/administrative technical support) (0.25 points per full year of scholarship; maximum 1.0 point); Effective participation in a Research Group registered with CNPq /participation in a research project (0.25 points for each year; maximum 1.0 point); Course in the health area with a workload of  $\geq 120$  hours (0.25 point; maximum 0.5 point); Participation in the Academic Center Board (0.25 point - per full year; maximum 0.5 point);

b) **Teaching/service experience (no time limit) up to 2.0 points** - Teaching or preceptorship in higher education in the health area (1.0 point per full year of exercise; maximum 2.0 points); Participation in Examining Boards for Undergraduate/Specialization Course Conclusion Papers (0.1 point per board; maximum 0.5 point); Completed supervision of scientific initiation (0.25 points per supervision; maximum 0.5 points); Completed supervision of undergraduate/postgraduate lato-sensu course completion work (0.25 points per supervision; maximum 1.0 point); Clinical practice and/or management activity (0.5 points per full year; maximum 2.0 points);

c) **Scientific production/articles (January 2022 until registration) up to 3.0 points** - Full article published or in press (article accepted) in a journal in the nursing field with Citescore/Scopus or JCR equal to or greater than 0.1, or published in nursing journals indexed in Scielo, Medline or Revenf. For articles published in journals in other areas, journals with a Citescore or JCR  $\geq 2$  will be considered. If the Citescore/JCR values differ, the highest impact factor between the bases or the article with the highest number of citations will be considered. To establish the score, the Citescore/JCR in force during the selection period will be taken (2 points per article); Articles published in nursing journals or in other areas in the Lilacs or BDNF, MEDLINE, Scielo and LILACS databases (1.0 point per article), RIC/CUIDEN  $\geq 1.5$ , CINAHAL or RIC/CUIDEN 0.1 to 1.4 (0.5), Latindex (0.25 point per article).

**d) Scientific Production/except article (January 2022 until registration) up to 2.0 points**

Authorship/Organization of a book published with ISBN (0.5 points per book; maximum 1 book); Chapter of a book published with ISBN (0.25 points per chapter; maximum 0.75 points); Simple/extended abstract published in the proceedings of a National/International event (0.1 points; maximum 0.5 points);

Participation as: lecturer/speaker/table moderator/live streamer/interviewee on radio or TV programs (0.25 points per event; maximum 0.5 points); Filing or registration of a technological patent (1.0 point per product, maximum two products); Participation as: Lecturer/speaker at a local/regional/national event (0.25 points per event, maximum 0.5 points); Interview granted to radio or TV programs (0.25 points per interview, maximum 0.5 points); Work awarded at a national/international event (0.25 points per award, maximum 1.0 point); Patent filed or granted (0.5 points per patent, maximum 1.0 point); Technology registration (0.25 points per registration, maximum 0.5 points). **(ANNEX 1).**

#### 4.4 Final ranking

The final ranking result for PhD candidates will be the weighted average of the scores obtained in the assessment of the curriculum, the analysis of the thesis pre-project, and the interview, according to the following formula:

**NF = (2 Curriculum Note + 3 Pre-Research Project Note + 2 Interview Note)/7.** The final average will be expressed as a grade on a numerical scale from 0.0 (zero point zero) to 10.0 (ten point zero), with the minimum grade to pass the selection process being **6.0** (six point zero).

In the event of a tie in the final average, this will be resolved by considering the highest score in the **analysis of the Lattes CV**. If the tie persists, the highest score in the research pre-project will be considered. If the tie persists, the highest score in the interview will be considered. If the tie still persists, the candidate with the highest age will be approved.

Approved candidates may be reassigned outside the supervisor's vacancies, provided there are vacancies and the candidate and the available professor accept, regardless of the Line of Research originally chosen.

#### 5. Calendar

<b>Registration</b>	<b>from 00:00 on September 1st to 23:59 on September 30th, 2025</b>
Announcement of successful applications	until 18:00 on 02/10/2025
Request for appeal against the rejection of registration	03/10/2025
Result of appeals	until 6 p.m. on 06/10/2025
Evaluation of research pre-project	06/10/2025 to 09/10/2025
Announcement of the result of the Research Pre-project Evaluation	until 6 p.m. on 10/10/2025
Request for appeal	until 6 p.m. on 13/10/2025
Result of requested appeals	until 6 p.m. on 16/10/2025
Announcement of interview times	until 6 p.m. on 17/10/2025
Doctoral candidates' interviews	20/10/2025 e 21/10/2025 08:00 to 12:00 and 13:30 to 17:30 hours
Announcement of interview results	22/10/2025
Request for appeal	until 6pm on 23/10/2025

Result of appeals	until 6pm on 27/10/2025
CV analysis	27/10/2025 to 30/10/2025
Announcement of the results of the curriculum analysis	31/10/2025
Request for appeal	03/11/2025
Result of appeals	until 6pm on 05/11/2025
Doctorate selection final result	until 6pm on 07/11/2025
Hetero-identification procedure	Wait for confirmation from UECE. Information will be published on the PPCCCLIS website.

## 6. Requirements to enter and remain in the Program

### 6.1 Proof of the minimum degree required

Proof of the minimum degree required will be required of successful candidates who were still Master's students during the selection process. Enrolment will be conditional on the presentation of a **Master's degree** or a declaration attesting to the date on which the dissertation defense took place, up to 12 months before the first enrolment on the course.

### 6.2 Proof of having passed a reading proficiency test in English and another foreign language, except Portuguese.

Reading proficiency in English and another foreign language will be required for all candidates approved in this selection process. Students who have not submitted a Declaration of Reading Proficiency in English and another language, with a score of  $\geq 7.0$  (seven point zero) when registering for the Selection Process, must provide proof of this proficiency issued by a public institution when they first register for the course, or within 12 (twelve) months of their first registration. Failure to comply with this recommendation will result in dismissal from the course.

### 6.3 National Foreigners Registry (RNE) and proof of proficiency in Portuguese (CELPE-BRAS) for foreign applicants;

Reading proficiency in Portuguese will be required for all applicants approved in this selection process. Students who did not submit a Declaration of Proficiency in reading Portuguese, with a score  $> 7.0$  (seven point zero) when registering for the Selection Process, must prove such proficiency when enrolling in the course for the first time, or within six (6) months from their first enrollment. Failure to comply with this recommendation will result in expulsion from the course.

## 7. General provisions:

- The announcement of the final results of each stage will only indicate the registration numbers of the successful candidates, listed in numerical order of registration;
- The vacancies will be filled in order of the candidates' ranking, subject to the limit of the vacancies on offer;
- The final number of successful candidates may be less than the number of vacancies established in this call. There will be no obligation to fill the vacancies on offer;

- Administrative appeals must be submitted in writing and signed by the candidate, justifying the request, to the Program Coordination via e-mail from the PPCCLIS Secretariat ([selecao.ppcclis@uece.br](mailto:selecao.ppcclis@uece.br)), within 24 hours of the announcement of the results of each stage, from 8am to 5pm;
- There will be no appeal against the final result of the selection;
- Approval and classification in the selection process **do** not guarantee the granting of any kind of scholarship or aid by the Postgraduate Program Clinical Care in Nursing and Health;
- When available, the granting of scholarships will be governed by the rules and criteria of the funding agencies and the Program's Scholarship Committee;
- The candidate's registration implies acceptance of the rules set out in this Call for Proposals;
- The financial cost of registering for the selection process will not be refunded for any reason whatsoever;
- When registering, the candidate will be given an identification number which will be used when grades are announced at all stages of the selection process;
- Candidates approved in the selection process whose registration was made by means of a declaration that the dissertation would be defended, will only register if they present a declaration from the Program that the dissertation has been defended by the last day of the first registration of the semester in 2025.1;
- Applications that do not submit the complete documentation provided for in this notice will not be accepted.
- The absence of a candidate at any stage excludes them from the selection process;
- The results of the different stages of the selection process will be published on <http://www.uece.br/ppcclis> and on the social network [@ppcclis\\_uece](https://www.instagram.com/ppcclis_uece);
- Selected candidates who fail to register will be considered withdrawn;
- Any omissions or situations not provided for in this Call for Proposals will be resolved by the Selection Committee, in consultation with the Program Committee.

Prof. Me. Hildebrando dos Santos Soares

RECTOR

## ANNEX 1

### FORM - Scoring of the candidate's *curriculum vitae*.

EVALUATION ITEMS		MAXIMUM SCORE
<b>Academic and Research Training (No time limit) up to 3.0 points</b>		
Academic/Professional Master's Degree	1.0 point (maximum 1.0 point)	
Postgraduate scholarship holder	0.5 points (maximum 0.5 points)	
Health residency	1.0 point (maximum 1.0 point)	
Specialization in the health area	0.5 point (maximum 1.0 point)	
Undergraduate scholarship holder (PET-MEC/PET-MS/Extension/ Monitoring/Research/Administrative technical support)	0.25 point per full year of scholarship (maximum 1.0 point)	
Effective participation in a CNPq-registered research group / participation in a research project	0.25 point for each year (maximum 1.0 point)	
Course in the health area with workload $\geq$ 120 hours	0.25 points per full year (maximum 0.5 points)	
Participation in Academic Center Board	0.25 points (maximum 0.5 points)	
<b>Teaching/Service experience (no time limit) up to 2.0 points</b>		
Teaching or preceptorship in higher education in the health area	1.0 point per full year (maximum 2.0 points)	
Participation in Examination Boards for Undergraduate/Specialization Course Conclusion Papers	0.1 point per board (maximum 0.5 points)	
Completed Scientific Initiation Guidance	0.25 points per supervision (maximum 0.5 points)	
Completed supervision of undergraduate/postgraduate lato-sensu course conclusion papers	0.25 point per orientation (maximum 1.0 point)	
Clinical practice and/or management activity	0.5 point per full year (maximum 2.0 points)	
<b>Scientific Production/Articles (January 2022 until registration) up to 3.0 points</b>		
Full article published or in press (accepted article) in a nursing journal with a Citescore/Scopus or JCR equal to or greater than 0.1, or published in nursing journals indexed in SciELO, Medline or Revenf. For articles published in journals in other areas, journals with a Citescore or JCR $\geq$ 2 will be considered.	1.0 point per article	
Articles published in nursing journals or in other areas in the Lilacs or BDEF, MEDLINE, SciELO and LILACS databases	1.0 point per article	

Articles indexed in RIC/CUIDEN $\geq$ 1.5, CINAHAL or RIC/CUIDEN 0.1 to 1.4	0.5 point per article	
Articles indexed in Latindex	0.25 point per article	

Scientific Production/except article (January 2022 until registration) up to 2.0 points		
Authorship/Organization of published book with ISBN	0.5 points per book (maximum 1.0 point)	
Published book chapter with ISBN	0.25 points per chapter (maximum 0.75 points)	
Simple/extended abstract published in proceedings of national/international event	0.1 point per paper (maximum 0.5 point)	
Participation as: lecturer/speaker at local/regional/national event	0.25 points per event (maximum 0.5 points)	
Interview granted to radio or TV programs	0.25 points per interview (maximum 0.5 points)	
Work awarded at national/international event	0.25 points per award (maximum 1.0 point)	
Patent filed or granted	0.5 points per patent (maximum 1.0 point)	
Technology registration	0.25 point per registration (maximum 0.5 point)	
<b>TOTAL</b>		

## ANNEX 2

### Functionality Certificate

Evaluator: \_\_\_\_\_

Specialty: \_\_\_\_\_ I  
attest that \_\_\_\_\_, bearer of identity  
documentation \_\_\_\_\_, underwent a functional assessment on this date and was  
classified as marked in the domains below according to the International Classification of Functioning,  
Disability and Health (ICF).

EM RELAÇÃO A APRENDIZAGEM:	Defina o desempenho na atividade de acordo com os qualificadores abaixo, marcando um X sobre o quadrado:						
1 – Ler (d166) – Definição: realizar atividades envolvidas na compreensão e interpretação da linguagem escrita (livros, instruções ou jornais em texto ou em braille), com o objetivo de obter conhecimentos gerais ou informações específicas.	a. Não há limitação;	b. Limitação leve;	c. Limitação moderada;	d. Limitação grave;	e. Limitação completa.	f. Não especificado;	g. Não aplicável.
2 – Escrever (d170) – Definição: Utilizar ou produzir símbolos ou linguagem para transmitir informações, como produzir um registro escrito de eventos ou ideias ou redigir uma carta.	a. Não há limitação;	b. Limitação leve;	c. Limitação moderada;	d. Limitação grave;	e. Limitação completa.	f. Não especificado;	g. Não aplicável.
EM RELAÇÃO A COMUNICAÇÃO:	Defina o desempenho na atividade de acordo com os qualificadores abaixo, marcando um X sobre o quadrado:						
3 – Comunicação – recepção de mensagens orais (d310) – Definição: Compreender o significado literal e implícito das mensagens em linguagem oral, como distinguir se uma frase tem um significado literal ou é uma expressão idiomática, como responder e compreender mensagens faladas.	a. Não há limitação;	b. Limitação leve;	c. Limitação moderada;	d. Limitação grave;	e. Limitação completa.	f. Não especificado;	g. Não aplicável.
4 – Comunicação – recepção de mensagens não verbais (d315) – Definição: Compreender os significados literal e implícito das mensagens transmitidas por gestos, símbolos e desenhos.	a. Não há limitação;	b. Limitação leve;	c. Limitação moderada;	d. Limitação grave;	e. Limitação completa.	f. Não especificado;	g. Não aplicável.
5 – Fala (d330) – Definição: Produzir palavras, frases e passagens mais longas em mensagens faladas com significado literal e implícito, como expressar um fato ou contar uma história em linguagem oral.	a. Não há limitação;	b. Limitação leve;	c. Limitação moderada;	d. Limitação grave;	e. Limitação completa.	f. Não especificado;	g. Não aplicável.
6 – Produção de mensagens não verbais (d335) – Definição: Usar gestos, símbolos e desenhos para transmitir mensagens, como balançar a cabeça para indicar desacordo ou fazer um desenho ou diagrama para transmitir um fato ou uma ideia complexa.	a. Não há limitação;	b. Limitação leve;	c. Limitação moderada;	d. Limitação grave;	e. Limitação completa.	f. Não especificado;	g. Não aplicável.

EM RELAÇÃO A MOBILIDADE:		Defina o desempenho na atividade de acordo com os qualificadores abaixo, marcando um X sobre o quadrado:						
7 - Andar (d450) – Definição: Mover-se sobre uma superfície a pé, passo a passo, de maneira que um pé esteja sempre no solo, como passear, caminhar lentamente, andar para frente, para trás ou para o lado.	a. Não há limitação;	b. Limitação leve;	c. Limitação moderada;	d. Limitação grave;	e. Limitação completa.	f. Não especificado;	g. Não aplicável.	
8 – Deslocar-se por diferentes locais (d460) – Definição: Andar ou se movimentar por vários lugares e situações, como andar entre cômodos em uma casa, dentro de um prédio ou pela rua de uma cidade.	a. Não há limitação;	b. Limitação leve;	c. Limitação moderada;	d. Limitação grave;	e. Limitação completa.	f. Não especificado;	g. Não aplicável.	
9 – Deslocar-se utilizando algum tipo de equipamento (d465) – Definição: Mover todo o corpo de um lugar para o outro sobre qualquer superfície ou espaço utilizando dispositivos específicos para facilitar a movimentação ou criar outras maneiras de se mover com equipamentos como andador e cadeira de rodas.	a. Não há limitação;	b. Limitação leve;	c. Limitação moderada;	d. Limitação grave;	e. Limitação completa.	f. Não especificado;	g. Não aplicável.	
10 – Utilização de transporte (d470) – Definição: Utilizar transporte para se deslocar como passageiro, como ser levado em um automóvel ou em um ônibus.	a. Não há limitação;	b. Limitação leve;	c. Limitação moderada;	d. Limitação grave;	e. Limitação completa.	f. Não especificado;	g. Não aplicável.	
EM RELAÇÃO A EDUCAÇÃO ESCOLAR:		Defina o desempenho na atividade de acordo com os qualificadores abaixo, marcando um X sobre o quadrado:						
11 – Educação escolar (d820) – Definição: Obter acesso à escola, educação; participar de todas as responsabilidades e privilégios relacionados à escola e aprender o material do curso, matéria e outras exigências curriculares em um programa educacional primário e secundário, incluindo ir à escola regularmente, trabalhar em cooperação com outros alunos, seguir as orientações dos professores, organizar, estudar e concluir as tarefas e projetos designados e progredir para os outros estágios de educação.	a. Não há limitação;	b. Limitação leve;	c. Limitação moderada;	d. Limitação grave;	e. Limitação completa.	f. Não especificado;	g. Não aplicável.	

EM RELAÇÃO AOS FATORES AMBIENTAIS:	Definir o nível de facilitação do fator ambiental de acordo com os qualificadores abaixo, marcando um X sobre o quadrado:						
12 – Produtos e tecnologia para mobilidade e transporte pessoal em ambientes internos e externos (e120) – Definição: Equipamentos, produtos e tecnologia utilizados pelas pessoas nas atividades de deslocamento dentro e fora de edifícios, incluindo aqueles adaptados ou especialmente projetados, situados dentro, em cima ou perto da pessoa que os utiliza.	a. Não há limitação;	b. Limitação leve;	c. Limitação moderada;	d. Limitação grave;	e. Limitação completa.	f. Não especificado;	g. Não aplicável.
13 – Produtos e tecnologia para comunicação (e125) – Definição: Equipamentos, produtos e tecnologia utilizados pelas pessoas nas atividades de transmissão e recepção de informações, incluindo aqueles adaptados ou especialmente projetados, situados dentro, em cima ou perto da pessoa que os utiliza. Ex.: Dispositivos ópticos e auditivos, gravadores e receptores de áudio.	a. Não há limitação;	b. Limitação leve;	c. Limitação moderada;	d. Limitação grave;	e. Limitação completa.	f. Não especificado;	g. Não aplicável.
14 – Produtos e tecnologia para educação (e130) – Definição: Equipamentos, produtos, processos, métodos e tecnologia utilizados para aquisição de conhecimento, especialização ou habilidade, incluindo aqueles adaptados ou especialmente projetados. Ex.: Livros, Manuais, Hardware ou Software de computador.	a. Não há limitação;	b. Limitação leve;	c. Limitação moderada;	d. Limitação grave;	e. Limitação completa.	f. Não especificado;	g. Não aplicável.

## ANNEX 4

### Analysis of the Research Proposal and Internationalization Plan

<b>THE PROJECT HIGHLIGHTS: (3.5)</b>
ADHERENCE TO THE CANDIDATE'S SUBJECT AREA (1.0)
Problem and contextualization of the research object (0.5)
Justification of the study (0.5)
Relevance and advances in knowledge in relation to the state of the art in Nursing (1.0)
FEASIBILITY OF THE PROPOSAL (0.5)
<b>METHOD (2.5)</b>
Type of study consistent with the proposed objective(s) (0.5)
Description of the study site (0.3)
Identification of the population and sample or subjects who will be involved in the study (0.5)
Instrument and procedure for data collection (0.5)
Detailed description of the data analysis (0.5)
Ethical and legal aspects of the research, highlighting CNS/MS Resolution 466/12 (0.2)
<b>COHERENCE BETWEEN THE OBJECT OF STUDY, OBJECTIVES AND METHOD: (1.0)</b>
<b>QUALITY OF THE WRITING (1.0)</b>
Proper spelling and grammar (0.5)
Coherence in project description (0.5)
<b>UP-TO-DATE AND COMPREHENSIVE BIBLIOGRAPHY: (1.0)</b>
70% of references from the last 5 years (0.1)
National and international scope (0.1)
Predominant citations of scientific articles (0.2)
References from the candidate's work (0.1)
<b>INTERNATIONALIZATION ACTIVITY PLAN (1.0)</b>
Implementation potential (0.2)
Outline of strategies (0.2)

Estimated resources (0.2)
Consistency with the thesis proposal (0.2)
Contribution to the candidate's training (0.2)

**ANNEX 5**

**FORM - Criteria for Evaluating the Interview**

<b>COHERENCE AND ARGUMENTATIVE CAPACITY IN THE PRESENTATION OF THE PRELIMINARY PROJECT (4.0):</b>
Coherence in the presentation of the preliminary project (2.0)
Argumentative capacity in the preliminary project (2.0)
<b>FEASIBILITY OF THE PROPOSAL AND INTERNATIONALIZATION ACTIVITY PLAN (3.0)</b>
Feasibility of carrying out the research and internationalization activity plan (2.0)
Experience with the object of study (1.0)
<b>MASTERY OF THE SUBJECT (3.0)</b>
Mastery of the theoretical content of the preliminary project (2.0)
Perception of the PhD course and the role/responsibility of a Doctor of Nursing (1.0)

Prof. Me. Hildebrando dos Santos Soares
